From: Lou Vallario, Sheriff

Date: April 2, 2025 Re: Salary Survey

Gentlemen,

In 2024, the Garfield County HR Department, with your approval, commissioned a salary survey to be completed by an outside firm for the purpose of wage adjustments in the 2025 budget. As a result of that study, 361 employees paid by the county in every department or office were subject to receiving a wage adjustment totaling \$1,063,694.00, except the 143 members of the Sheriff's office who were not included in this survey and adjustment.

I do not know why we were not involved in a county-wide salary survey and I am not suggesting any nefarious behavior. Nonetheless, people who risk their lives every day for this community were not included. It could have been a result of a change in leadership in the HR Department, confusion about our separate pay scale for sworn personnel, or something else. Regardless, my employees were not involved and we need to have a conversation about that and adjust my budget, accordingly.

When I saw the results of the new pay scale for the county, I was concerned about my administrative folks and how their jobs and pay compare to an alike job in another department or office in the county. When my employees are making \$2-4 per hour less for the same job, I find myself in a positon where not only am I struggling to fight other law enforcement agencies to retain Deputies, but now I'm having to compete within Garfield County to keep administrative staff!

So, earlier this year, I hired an outside consultant to do a survey for both our sworn and administrative personnel. That survey is completed and I would like to have that firm do a presentation to you to explain the details of that survey such as their methodology, survey group, comparable wages with other markets, compa-ratios, etc.

Without going into the details of the data, some of the concerns I noted were that because of legislation that removed most/all of the immunity protections for law enforcement personnel, the willingness for people to get into, or remain in the law enforcement profession is directly tied to higher wages. As a result, we can see a significant increase across the market. More individual risk means more pay.

Further, even though we have increased our starting Deputy wages 33% since 2021, (thank you) we are still behind the market and that is based on my preference to maintain our wages at or above a "median" scale. We do not want to be a "lag" organization, nor is it reasonable to expect us to be in the upper end of a "lead" organization. I just want fair and competitive wages for my employees and the ability to retain them.

Another important factor to consider is the cost of hiring new (replacement) Deputies. As of 2023, that first year cost is approximately \$165,000 inclusive of wages, benefits, training, equipment, etc. It is no doubt higher today. These expenses have to be balanced against the cost of a salary adjustment if we hope to retain people.

To be transparent, our consultant, my HR Director (Stacie) and Administrative Commander (Cathy) have been crunching numbers and adjusting job descriptions based on the final results. To achieve a spot in the fair market, we are looking at an adjustment to our annual budget to be equitable and consistent with what the other county-paid employees enjoyed this year.

As always, I am absolutely willing to discuss how and when we can make these adjustments. However, one important position that I have argued before is that I cannot and will not balance operational needs and costs to attain higher wages. A well paid law enforcement agency that is unable to provide the expected services to the community does nobody any good. On the other hand, a law enforcement agency with high levels of vacancies also does not achieve those required and expected services.

Finally, as we all know, this is a never-ending exercise. Unless we see deflation in the country, zero increases in the cost of living, or other agencies no longer willing to increase their wages to remain competitive, we will always be expected to assume the financial liability of higher wages and benefits, year after year.

Sheriff's Office – Compensation Philosophy Summary

Align with County compensation philosophies to set pay at the median of the external labor market for comparable regional employers, and to continue to work towards ongoing alignment of individual pay with the external labor market through meaningful merit-based increases, equity analysis, and economic conditions analysis.

Offer pay that is based on performance and provide opportunities for professional growth and development.

Understand that we cannot afford to be the highest paying organization, while also recognizing that we cannot afford to not be in the upper range to remain competitive and retain staff.

Recognize that there are significant differences from any positions the County has and as such a separate and comprehensive analysis was conducted by an independent consultant for direction with pay structure for these sworn positions.

Make adjustments in a way such that past performance increases are not diminished, while ensuring a high level of commitment to safety in the community.

Budget Goals

The Sheriff's Office remains committed to providing the same level of excellent law enforcement services to our community that we have since 2003. We will diligently work with the Board of County Commissioners to maintain those statutory services and strive to be a part of the overall budget solution through any financial environment. The GCSO has been fiscally conservative during the past 21 years, spending only the funds necessary to provide the expected public safety services. We will continue to adhere to that philosophy while meeting the needs of our statutory requirements as a Sheriff's Office.

Mission Statement

The Mission of the Garfield County Sheriff's Office is to provide solutions for the people through professional, ethical and compassionate conduct.

Vision Statement

"See the future and prepare for it today"

Scope of Assessment

internal equity and providing for career progression. Intent: To employ top talent and ensure all employees at the Garfield County Sheriff's Office are paid competitively to market, while maintaining

Scope: Provide recommendations to update GCSO's Pay Structure based on current, statistically valid market data from a defined market.

current employees Focus on recruitment of future employees and retention of

pay philosophy of GCSO Align total compensation to the

Positions reported as hardest to fill (excluding health care)

POLICING

CORRECTIONS

SKILLED TRADES:

Methodology Used

- Assessed positions through job matching:
- Identify the most relevant match between GCSO's position and the other agencies
- Consider duties performed and qualifications required of the job
- Review the degree of knowledge, skill, and ability required
- Consider job family progression, span of control, reporting relationships, scope of decision-making authority, and overall impact on the department
- Jobs were not matched by job title only

Use a defined market

agencies GCSO's assessment reviewed total compensation from 14 law enforcement

Defined Market

Precision assessed total compensation data (Salaries, Benefits, Retirement, Paid leave, etc.)

Sheriff's Offices:

Fremont, and La Plata Eagle, Mesa, Montrose, Summit, Pitkin, Routt,

Police Departments:

New Castle, Carbondale, Basalt, Glenwood Springs

Silt and Grand Junction

Compensation Study

The defined market was based on:

- Agency size and location
- Agencies that have the ability to easily recruit GCSO deputies and employees

Precision provided an updated pay scale with proposed adjustments:

- Includes a minimum, midpoint, and maximum salary range
- Allows for flexibility to pay the employee according to performance criteria
- Aligns with GCSO's pay philosophy

GCSO's ability to recruit new deputies has been difficult with the current pay structure

GCSO's retention of existing deputies must be considered when assessing adjustments

Pay Philosophy

be the leader in the defined market. GCSO wants to remain competitive with total compensation offered but not necessarily

assessing adjustments to compensation. GCSO's ability to recruit new deputies and retain existing deputies was considered when

better retention and recruitment. GCSO needs to "move the goal post" with its wage bands to align with other agencies for

for all sworn positions and most administrative positions Market results showed GCSO lagging with entry-level pay
