

MEMORANDUM

TO: Chairman Martin and Garfield County Board of County Commissioners

FROM: Bentley Henderson

DATE: 10-21-2024

RE: Playground Equipment Purchase 1102 Grand Ave.

BACKGROUND

At your August 15th meeting, you directed staff to engage with interested neighbors in defining appropriate playground equipment for the space located behind the Human Services building located at 1102 Grand Ave. Staff engaged with representatives of the City of Glenwood Springs obtain advice regarding appropriate equipment, and once that was completed alternatives were presented to the neighborhood group. Concurrent with staff's effort, the neighborhood group was also engaged in identifying equipment. The results of both efforts are provided.

DISCUSSION

Provided for your consideration are the six options identified by staff, and the alternative being proposed by the group. Additionally, for context, there is a picture of the equipment that was previously at the site.

As you will see, costs for the equipment range from just under \$13,000 to (roughly) \$21,300. Staff has established a maximum \$20,000 budget for this project. The intent in the establishment of that limit is to allow for some flexibility in the purchase of the equipment while avoiding a lengthy procurement process that becomes required beyond that amount.

ACTION

Provide direction to staff as to appropriate equipment acquisition.

Description

Our Monkey In The Middle commercial playground will bring smiles, laughs, and memories to the children at your school, religious center, or neighborhood park for years to come. The fun begins with the Figure Climber, ADA Transfer Station, and Vertical Climber and continues on the Elevated Decks. These two decks are connected by a Crawl Tunnel, allowing them to explore all parts of the playground easily. A Pyramid Roof covers one of the decks and features a Single Straight Slide, while a Single Right Turn Slide branches off the other deck. A Racing Game Panel and Ship's Wheel provide additional games at the ground level.

- Two Single Slides for double the fun.
- Crawl Tunnel for adventure and exploration.
- Climbers to promote a challenge and physical development.
- Kids can participate in ground level play with Activity Panels.
- Structure accommodates up to 29 children ages 2-12 years.
- 15 year limited warranty on UV stabilized and rotationally molded plastic components.
- UV stabilized and rotationally molded plastic parts.
- Lead-free Polyethylene coating for optimal durability.

2

- One Double Slide to race friends.
- Two Single Slides for excitement.
- Kids can enjoy interactive Activity Panels.
- Climbers to promote a challenging and physical development.
- Structure accommodates up to 38 children ages 2-12 years.
- 15 year limited warranty on UV stabilized and rotationally molded plastic components.
- UV stabilized and rotationally molded plastic parts.
- Lead-free Polycarbonate coating for optimal durability.

Our Chimp Champ playground is a great mid-size commercial play structure that will bring lots of excitement and fun to any school, church, or neighborhood park. It features a Double Slide, a Right Turn Slide, and a Straight Slide for maximum fun. In addition, there is an Inverted Arch Climber, Vertical Challenge Ladder, Figure Climber, and an ADA Transfer Station that kids will love. They will also love the Tic-Tac-Toe Panel and Bongo for stimulating and interactive play with others.

Re: Proposal for Lemonade Park "When Life Gives You Lemons, Make Lemonade"

Our goal is to Create a space for community, connection, growth, play, movement, and belonging. Our proposal for the playground is based upon the values of

- 1. Inclusion**
- 2. Creativity**
- 3. Connection between all ages**

Lemonade Playground is an opportunity to turn the lemons of the improper destruction and loss into a gem of the community. The other proposed equipment misses the mark and fails to consider the growth, development, and health of the community.

Public playgrounds can define the tone of the community and the equipment and design is what determines the quality of the park. The Lemonade Playground will give the residence of Glenwood Springs a space where they can gather visit play and children can be creative and social, regardless of ability or social capacity

1. Inclusion:

The Lemonade Playground has a variety of equipment and elements that are accessible and enjoyable for children and adults of varying physical and developmental limitations. Elements like a swing, bench swing, transition station mean that everyone can find play and joy.

2. Creativity:

The elements of Lemonade Playground are diverse and open ended and encourage creative and independent play for children of all ages. Elements like the slides, balance hop rocks, merry go round encourage group and individual play and creative engagement day after day and year after year.

3. Connection Between All Ages

The Lemonade Playground is designed for engagement and play between children and their beloved adults. Rather than distinct elements for young and older children, the swings, swinging bench, and rocks encourage engaging play and fun for children with their adult's not apart from. This not only increases connection and fun but will mean that everyone enjoys coming to the playground and staying longer. The Lemonade Playground is not just intended for young children or elementary aged children, but for whole families to gather and enjoy an afternoon.

The Friends of Axtell Park

Smcerely,

Thank you for your care and consideration.

- We believe that it is the obligation of the community and the county to ensure that the space is accessible to people to the greatest extent possible. The equipment is all manufactured and sold by Wally Goat and is of high quality, durable, safe materials. We are happy to discuss this at a meeting with the commissioners at your earliest convenience.
- Below is a breakdown of the cost and link to the equipment. The budget is over what was proposed we would be happy to apply for grants for ADA compliant playgrounds to reimburse Carroll County of access expense.
3. **Treasure Library:** As part of the Little Library, a little "treasure" exchange is a space where children can take a treasure, leave a treasure. This can be slide walls, chalk, small toys, and seeds in the spring. This encourages reuse and recycling of toys and encourages children to be generous and community minded.
2. **Family Little Library:** A Little Library is a space where everyone can leave a book and take a book. This would be managed by the neighborhood and be focused on children's books and books that can be read together as families. Again, the hope is that this is a space where families can come together and connect off screens, away from TVs, and find ways and ideas on how to take that connection home with them.
1. **Water Fountain:** We live in the high Rockies where drinking water is crucial for health and well-being. A water fountain at the playground will ensure that children and adults stay hydrated while play and are able to stay and enjoy the park longer. This is also important for tourists who are less familiar with our area. This is a space that we can care for all families who visit Glenwood.
- Playground Elements:** We have a unique opportunity to improve upon the playground, expand the population served, and make this playground a destination for fun and growth. In addition to the single play structure with slides and climbing elements, we believe it is important to have free standing elements for solo and group play. The equipment listed out in the table below. We also propose the following non-playground equipment elements are important to create the full spectrum and be a real community space:
- Water fountain - We live in the high Rockies where drinking water is crucial for health and well-being. A water fountain at the playground will ensure that children and adults stay hydrated while play and are able to stay and enjoy the park longer. This is also important for tourists who are less familiar with our area. This is a space that we can care for all families who visit Glenwood.
 - Family Little Library: A Little Library is a space where everyone can leave a book and take a book. This would be managed by the neighborhood and be focused on children's books and books that can be read together as families. Again, the hope is that this is a space where families can come together and connect off screens, away from TVs, and find ways and ideas on how to take that connection home with them.
 - Treasure Library: As part of the Little Library, a little "treasure" exchange is a space where children can take a treasure, leave a treasure. This can be slide walls, chalk, small toys, and seeds in the spring. This encourages reuse and recycling of toys and encourages children to be generous and community minded.
 - Playgrounds to reimburse Carroll County of access expense.

Merry Go Round

Quick Ship Save \$173.00 Made in USA

SPORTSPLAY SKU: 301-142P LEAD TIME: 3 TO 4 WEEKS

The classic (and dizzying) ride of a merry go round! The children at your daycare, school, or church will love the same thrill we all grew up with. Is any playground really complete without this ride? Pair it with a teeter totter, a playground slide or two, and you've put together a great combination with a variety of options for your park without the huge expense of the play system.

With the powder coated punched deck, this merry go round drains well for sure footing. Pair that colorful deck with the governor to control speed and shaft lubrication, and you've got a safe and smooth ride!

Commercial Grade Steel Lawn Swing and Frame

CHILD WORKS SKU: B4WBMODSWING LEAD TIME: 6 TO 8 WEEKS

The Commercial Grade Steel Lawn Swing and Frame is a robust and attractive addition to outdoor spaces such as parks, playgrounds, and community areas. This swing set features a contoured back and arms for comfortable seating, and is constructed with 3/4" #9 expanded metal. The frame is made of 2 3/8" tubing, which is galvanized and then powder-coated for durability and a polished finish.

It's available in both 4-foot and 6-foot lengths, providing versatility for different spaces. The swing set is designed for inground mounting, ensuring stability and safety. With an approximate seat height of 18 inches, it's accessible and comfortable for users.

This swing set is more than just a seating option; it's a fun, engaging addition to any outdoor area, offering a relaxing and enjoyable experience for visitors. Assembly is required. Its durable construction ensures it can withstand the demands of public use, making it a reliable and attractive choice for any outdoor setting.

Please see our [FAQ](#) and [Shipping Policy](#) for more information.

There are many instances where the crates and pallets can be pulled apart by hand and unloaded as well, but a forklift is generally the quickest way to unload the product and is what trucking companies recommend to avoid possible detention charges (unloading that takes more than 3 hours).

Commercial play systems generally benefit from having a forklift for unloading, which is typical in the industry.

Unless a loading dock is readily available, this equips site ships via curbside delivery.

Every order with complex shipping requirements receives shipping instructions.

RECEIVING

Products that are ordered from the same manufacturer will ship according to the longest lead time for those products. If a quick ship product is required to ship sooner, please let us know, though you may be required to pay extra for separate shipments.

Shipments can take up to 10 days in transit

Ship dates are a best estimate and not guaranteed

Once the item has shipped, you will receive a tracking number and important instructions for unloading

Please check the "Ships In" lead time above for this particular product -- many of our commercial play equipment items are made to order
